FICTION & NON-FICTION

Children will learn that the world is full of all sorts of people, speaking different languages, and living different kinds of lives, but deep-down people are basically the same wherever they live.

Children will gain an understanding that people all over the world are very different, but they also have much in common.

We will encounter the magic and mystery of unicorns, dinosaurs, dragons and fairies. The children can create their own dragons, become unicorns, stomp like a dinosaur, and visit lands far, far away.

Stick Man lives in the family tree, with his Stick Lady Love and their stick children three." But it's dangerous being a Stick Man. A dog wants to play with him, a swan builds her nest with him. He even ends up on a fire! Will he ever get back to the family tree? Who saves the day? The children will explore feelings, danger and seasons as we join stick man on his epic journey.

Through this book and supporting literature we will embrace a world where everyone is welcome. We will meet children in patkas, hijabs, baseball caps and yarmulkes as they play side by side. We will see a school and communities where children grow and learn from each other's interests, families and traditions.

In this book, children can learn all about what people in other countries eat, wear and how they play, speak and celebrate. This book teaches us that despite different languages, customs, and traditions, it really is a small world, after all. The children will learn to embrace and celebrate their uniqueness and that of others.

When a little girl is told there's no such thing as unicorns, she doesn't believe it for a second. Surely unicorns exist, after all, they are in books and films! The children will lose themselves in a world of awe and wonder, where make believe and imagination is a dream away.

The children will also explore the wonder and magic of the world through celebrations. They will explore festivals, including Harvest Festival, Bonfire Night, Diwali and Christmas

Dear Zoo

Rod Campbell

This text provides opportunities for the children to learn about wild animals, the sounds they make and their differences. The children will be able to join in with the repetitive refrains and create their own animal sounds.

This exciting book celebrates the diversity of the animal kingdom. It encourages use of the language of size and explores the different features of a wide range of animals from around the world.

This fun, dynamic story takes the listener on a whimsical journey through life on the farm, where the animals cause mayhem whilst the farmer sleeps. A little mouse adds an air of excitement as the children try to spot where he is hiding on each page.

We will enter the world of incredible transformations, where creatures such as butterflies begin life their life as tiny eggs, metamorphizing into majestic multicoloured winged butterflies. We will join the children in the story as they find out about the insect's life cycle.

From the confines of the zoo the children will break free to become explorers venturing through the noisy, vibrant jungle during the heat of the day, venturing into the tuneful moonlit night. Travelling onwards to swamps where alligators roam in the rainforest.

The children will be filled with awe and wonder as they shine a light though 'Secrets of the Rainforest', what will they see, what will they find? We will find many amazing differences as we explore the habitats of the diverse rainforest and noisy jungle.

The children will be exploring stories that see animals having amazing adventures, packed full of songs, alliteration and rhyme. We will make wonderful props to enhance our story telling and explore the noises animals make with 'What's that Sound?'

The children will encounter the magic of minibeasts. We will be exploring the pre-school grounds, woods, surrounding fields and hedgerows for insects and become detectives of the past, present, and the future. We will plant seeds that will grow into flowers that will attract wildlife.

NON-FICTION

All aboard, this rhythmic I-spy journey to school through various landscapes is a useful introduction to colours, modes of transport and, of course, music! The jaunty text, colourful hand-stitched illustrations and accompanying musical lyrics are a much-loved favourite of the children.

As we journey through this interactive lift the flap book, the children will discover what happens inside boats, bikes, planes, cars, buses and more. There are lots of things to spot and talk about in the book.

Every day, Tiddler is late for school, and every day he has another tall tale for his teacher. Did he really ride a seahorse? Did he really meet a mermaid? And who will believe him when he really does get captured in a net? Let's explore the creatures of the ocean together.

The children will be looking at the diversity and amazing facts surrounding a seahorse. What is a baby sea horse called? What does a sea horse eat? How does a father sea horse look after the eggs?

As the children go travelling by, will they become astronauts, pilots, construction workers, fishermen, cyclists, ramblers across distance, time or space? Will they visit planets or build a road? Who will visit the moon? Will we find a magnificent 'parno gry horse to join on his travels?

We will set out on foot from preschool and begin many journeys, will we catch a bus, look out for diggers on the local construction sites, look for ponies, trucks aeroplanes, and so much more. We will count as many forms of transport as we can, compare their size, colour and talk about where they may be travelling to.

Children will sail the seven seas, joining the inhabitants of the ocean. They will take on the fiercest of pirates, perhaps become pirates themselves. Join in adventures on the seashore where seagulls flap and sea shells clap to hear their mermaids sing.

The children will be further exploring the wonderful, spectacular world of the creatures and animals that live in the ocean and around the seashore.
